Education

Iowa State University of Science and Technology Ames, Iowa
Bachelor of Science, Software Engineering Graduation Date: May 2018
Cumulative GPA: 3.35/4.0

Career Experience

Cerner Corporation Kansas City, MO
Application Services Intern Summer 2017

- ◆ Created a web traffic simulation that monitored all Application Services endpoints and provided visual feedback when something went wrong.
- ◆ Worked with Hadoop and HBase in order to create more efficient pipeline runs for processing data.
- ◆ Used Splunk to gather useful data on our operational uptime and responses.

Baxter Credit Union (BCU) Vernon Hills, IL
Remote Delivery Intern Summer 2016

- ◆ Completely rewrote console applications in order to reduce dependencies on other systems.
- ◆ Developed new structure of interfaces that reduced dependencies on third party vendors.
- ◆ Developed applications using interfaces, dependency injection, and SQL to meet business needs.
- ◆ Refactored Middleware in order to avoid implementing the same functionality multiple times.

Baxter Credit Union (BCU) Vernon Hills, IL
IT Intern Summer 2015

- ◆ Worked to streamline and optimize communication between Web Banking and back end operations
- ◆ Designed VB.net programs to automate the process of welcoming customers to the Credit Union
- ◆ Worked closely with business to make sure everyone involved was aware of expectations.
